

Mass Casualty Incidents

Reassessment of Deceased / Black Tagged Patients

The decision to commence reassessment will only be completed after consultation with the Incident Commander.

Incident Commander can consult with EPOS if further support is required

BCEHS Paramedics will **not** routinely reassess patients who, following START Triage by any agency, have been determined as deceased or given a black triage tag.

The decision to reassess black-tagged patients will only be done under the following conditions:

With the intent to perform full resuscitation for survivability only.

OR

When EHS resource capacity has stabilized and near-full scope can be performed

OR

When START triage has **not** been completed.
